

Hampton, NH 2009 Rain Barrel Program

The Hampton Conservation Commission, in a special program with SkyJuice, is offering SkyJuice rain barrels to Hampton residents at the discounted price of \$75, which is \$50 below the regular price of \$125. These rain barrels feature:

- 60 gallon recycled food-grade barrels.
- Fully-screened intake port to keep mosquitoes, insects and debris out.
- An easily-removable lid for cleaning and so you can store hoses in the rain barrel in the winter.
- A brass spigot that connects to a regular hose or a drip irrigation system.
- An over-flow tube that can direct water away from the foundation or back into a normal drain, or be used to connect multiple rain barrels together for additional capacity.

These recycled rain barrels come in grey, black, blue and terra cotta. Please give your first and second choice colors on your order form. All barrels are functionally sound.

Order Your Rain Barrel Today!

- For more information on ordering your rain barrel:
Conservation Commission: 603.929.5808
Jay Diener 603.929.6325

Hampton, NH 03842
- Rain barrel pick-up date: Saturday, May 30, 2009,
8:00am - 3:00pm
- Rain barrel pick-up location: White garage behind
Hampton Town Hall

SAVE

Collect rainwater from your roof! 1/4" of rain on a 1,000 sq. ft. roof will fill 2 rain barrels!

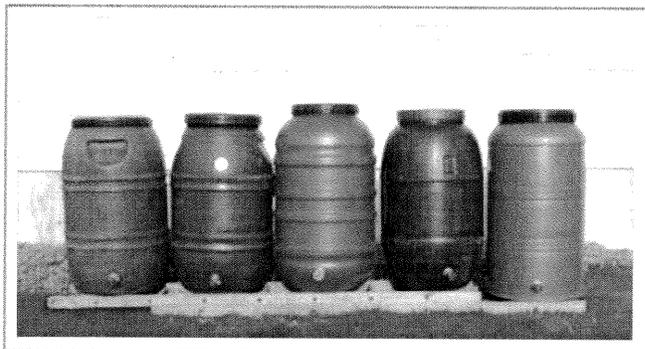

Use

Use the collected rainwater on your garden and house plants. Your plants will benefit from this naturally-soft, unfiltered water.

Using rain barrels is good for you, good for the environment, and good for your wallet!

- When you use rain barrels to collect roof runoff, you help reduce flooding on your street, in your yard, and in your basement. The rain barrel will collect the water and release it more slowly into your gardens, allowing your plants more time to absorb it and be nourished by it.
- Using rain barrels will help prevent roof runoff from flowing into environmentally-sensitive streams and ponds. Instead, the water from the rain barrels will soak into the ground, will be naturally-filtered, and will help recharge your groundwater system.
- Using rain barrels to collect water for your plants and lawn will mean you'll use less tap water for watering, thus reducing your water bill.

Hampton, NH 2009 Rain Barrel Order Form

SkyJuice Rain Barrel

\$75

- 60-gallon recycled rain barrel
- Removable intake screen to keep debris and mosquitoes out
- Overflow tube directs water away from your foundation
- Connects to drip irrigation, soaker and garden hoses
- Color prevents light transmission and inhibits algae growth
- Easy to set up and use; screw-off top for easy cleaning
- Saves rainwater and replenishes our groundwater
- Reduces runoff that contributes to stormwater problems

To order your Skyjuice rain barrel:

1. Complete the order form below.
 2. Indicate your first, second and third color preferences: Terra Cotta, Black, Grey, Blue.
 3. Include your check or money order for the total amount.
