

# Hampton Mosquito Control Committee

Meeting

October 5, 2011

Attendees: Ann Kaiser, Rich Reniere, Russ Bernstein

Meeting called to order at 6:35pm

We discussed the two proposals that we received: Swamp, Inc and Dragon. One concern was the \$50K difference in the 2 proposals, with Swamp being the lower. Swamp's proposal called for only "emergency" adulticiding which accounting for some of the price discrepancy. The board members felt that regular adulticiding was required. Another concern was whether Swamp would treat for all mosquitoes since the proposal only stated "disease-carrying" mosquitoes. We also questioned the effectiveness of Swamp's "larviciding by boat". Ann will check with the town attorney to see if the proposals could be changed.

Mike Morrison of Swamp wrote us a letter and wants a meeting to discuss his company. We voted unanimously to offer a meeting time for both companies with a tentative date of October 25<sup>th</sup>.

We voted unanimously to increase the money requested for next year from \$102,750 to \$103,000 for emergency spraying, if necessary.

We received a check from the state for \$12,187.40 as reimbursement for some of our 2010 expenditures. This money goes back into the general fund.

Meeting adjourned at 7:40.

Respectfully submitted by Russ Bernstein
