

Town of Hampton, New Hampshire

Capital Improvement Plan – Public Works Department

Grist Mill Dam Reconstruction Project Cost – 2013 \$34,000

2014 \$500,000

The New Hampshire Department of Environmental Services Dam Bureau has informed the town that it will be issuing an order demanding the renovation of the Grist Mill Dam with a time table.

This project will include a hydrological study and design for the renovation project in 2013 and reconstruction in 2014. The project includes purchasing and removing a private home adjacent to the dam. The town has submitted a 80% Hazard Mitigation Grant request for financial assistance for removing the home.
