

Spring is an extremely busy season for the Highway Division. After the long winter, the Division looks forward to its construction season. Some of the Division's activities in early spring are:

- Repair damage from winter operations
- Assess sections looking for deficiencies
- Street sweeping
- Pavement marking and painting lane lines
- Temporary road repairs (patching)

As the season begins to change the Division gears up for its construction season and begins work on:

- Permanent repairs for roadways
- Roadside mowing
- Sidewalk repairs and installation
- Tree and brush pruning and removal
- Spring yard waste collection (**watch for announcements**)
